

ROCK YOUR FUTURE

College Is What's Next

GENERATION

TX

TOP 5 WAYS TO ROCK YOUR FUTURE:

- 1 You Can't Get In If You Don't Apply**
Texas makes it easy. ApplyTexas.org lets you submit one application to all Texas public universities as well as many private and two-year colleges.

- 2 Your Scores Matter**
Study hard, keep your GPA high, and take the PSAT, SAT and/or ACT for college applications and scholarships. Talk to your counselor, and visit the websites: collegeboard.org and act.org for more information.

- 3 Visit College Campuses**
A college education opens doors to boundless career opportunities. College isn't limited to four-year gigs. Your options for college include two-year schools, technical schools, certificate programs, as well as universities. Visit campuses and make the choice that's right for you.

- 4 Find A Mentor**
Seek out a knowledgeable adult to guide you through the college application process. An experienced parent, counselor, teacher, or family friend can be a valuable advisor on your journey to college. Talk with someone who works in a career that sparks your curiosity.

- 5 Create A Brag Sheet**
It's never too early to create a brag sheet that organizes all of your accomplishments, community service, awards, internships, etc. This handy document will help you fill out scholarship applications, college applications, prepare for interviews, etc.
