

Mobile GO Centers

Mobile GO Centers are housed in trailers equipped with computers, printers and Internet connectivity. They travel to a variety of locations such as festivals, sporting events, supermarkets, shopping mall parking lots and schools that do not yet have a GO Center.

GO Centers in all their forms are unique and powerful tools because they go where students go. They serve as a point of contact and coordination between students, parents, P-12 counselors and institutions of higher education. They streamline the opportunity for students to discover resources to help them prepare and plan for college, and connect with volunteers – the G-Force – who can help them learn more about college and explore more options.

General Design Elements of a Mobile GO Center

While every Mobile GO Center is different, they all contain the following common design elements:

- College-related printed material such as pamphlets and catalogs
- Program applications for scholarships, financial aid, admission, etc.
- Posters/banners promoting education topics, programs and institutions
- Display area for a calendar of events (college fairs, test dates)
- Internet capability
- Computers and printer
- Electrical connection
- Other resource materials as determined by the Mobile Go Center coordinator

For additional information and to access the Mobile Go Center Toolkit please visit www.theccb.state.tx.us and click on P-16 Initiatives / P -16 Outreach.
